Reasons for Allowance

1. Claims 1-12 and 14-19 are allowed.

The following is an examiner's statement of reason for allowance:

None of the references of record teaches or suggests the claimed a planar lightwave circuit (PLC) module for conditioning light output from a tunable laser desired to generate light at a target wavelength, the PLC module comprising: a substrate; a primary waveguide embedded in said substrate, said primary waveguide having an input end for receiving light from the tunable laser and an output end for outputting said light at least a first secondary waveguide embedded in said substrate, wherein a portion thereof is located close enough to a portion of the primary waveguide so that said first secondary waveguide receives a first portion of said light from the tunable laser by direct or indirect evanescent coupling from said primary waveguide; **a filter means** having a passband centered on the target wavelength and coupled to an output of the first secondary waveguide to receive said first portion of light, wherein said **filter means** is for generating a signal related to the intensity of said first portion of light in the passband centered on the target wavelength, wherein the filter is a multiple-output filter having **a plurality of filters**.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance".
